County with operational syringe exchange program*

County with approved county ordinance for syringe exchange

County with executed letter of agreement**

*Per section 381.0038(4), Florida Statutes, county commissions must authorize syringe exchange programs by way of a county ordinance and must enter into a letter of agreement with the Florida Department of Health prior to contracting with an entity to operate the program.

**Counties that have executed a letter of agreement with the Department have also passed an ordinance.
